

# SAMSARA

*Celebrations That Carry Forward*

## Le Roma Samsara

When we set out to create Samsara, it wasn't meant to be just a venue for celebrations. It was imagined as something more complete — a place where your entire family could come together, and truly be present with each other.

Set by the tranquil waters of Chagaletti Lake, the space feels tucked away in its own quiet world — close enough to the city, yet distant in a way that matters. Like a destination, without the distance.

With Balinese-inspired architecture, 140 rooms to host your loved ones, and five distinct venues flowing across one estate, everything comes together effortlessly — so your celebration unfolds just as you envisioned, surrounded by the people who matter most.

## The Story of Samsara

Samsara, the circle of life, is the continuity of one generation flowing into the next.

A wedding is more than a beginning. It is a sacred link where love is carried forward. From parents' hands into their children, as they step into the cycle together, the story gently woven into something larger, waiting for new threads to find their place.

At Samsara, this spirit lives on.

Coming together like a hive, as a part of your forever— supporting, caring, and walking alongside, from our Samsara to yours.
